## The New Asbestos

**FOR IMMEDIATE RELEASE**

OSHA Poised to Fine Chicago Area  
Concrete Contractors \$48,000  
for White Silica Cloud

The Concrete Contractors Association of  
Greater Chicagoland is Proud to Present a

### Critical OSHA Silica Compliance Industry Advancement Workshop

#### OSHA's Silica Final Rule in Effect June 23, 2017

OSHA's new Silica Final Rule comes into effect June 23, 2017. The Agency has severely tightened requirements for contractors working with material that contains silica. Poised to begin enforcement activities immediately, the agency will be looking for contractors to fine and publicly shame through press releases.

In response to this need for its members, the CCA has partnered with Optimum Safety Management, an industry safety expert, to provide this valuable Industry Advancement Workshop. A long standing member of the CCA, Optimum understands the needs of the industry and has a unique vantage point through its study of the Silica Final Rule and work in parallel industries.

#### **PARTICIPANTS WILL RECEIVE:**

- Training regarding
  - The new Final Rule
  - The impact to the contractor
- A guided self-assessment of areas of exposure
- Development of a plan for their company
- Corporate Silica Program chapter template for your Safety Manual
- Work Exposure Control Plans for typical CCA Member Activities

#### **WHO SHOULD ATTEND:**

This seminar is open to all CCA Membership

- Owners
- CEO/COO/VP
